SLIDING WINDOWS & DOORS

Sliding Windows & Doors comprise of two or more sashes that slide horizontally on the outer frame. When compared to aluminum and other traditional sliding windows, the sashes of Windows & Doors move smoothly on inbuilt uPVC track of the outer frame. Sliding Windows & Doors are incredibly functional and one of the easiest type of windows & doors to use. ZIRCON Windows & Doors are steel reinforced for added strength. Multipoint locking ensures better safety and security. These windows allow more light and air to come in.

MULTI SLIDE

LIFT & SLIDIE

CASEMENT WINDOWS & DOORS

The most popular style of windows & doors used in India is outward openable. ZIRCON Windows & Doors open outward - almost 90° to provide maximum air and sunlight to come in. Our windows ensure complete sealing from dust, noise and other pollutants when closed. Casement windows can be made inward opening also. Multi-chambered profile and double sealing with gasket reduces the transfer of the heat and when windows & doors are fitted with double insulated glass, it makes them more energy efficient and save more energy upto 30%.

BIFOLDING WINDOWS & DOORS

uPVC Bi Fold Doors are considered to be the best alternative to sliding doors and old French doors. It has a folding sashes which helps save space and yet provides a wide opening. It also has multiple lock system for security. They have top grade thermal and sound insulation and are also low maintenance. They are the only uPVC doors that open both ways and provide a modern look to your house. These doors can be of 3,4,5,6 and 7 shutters with different opening patterns.
